

# **Technical data sheet** Safety light curtain receiver

Part no.: 68009303

MLC530R30-300-SPG

### Contents

- Technical data
- Dimensioned drawings
- Electrical connection
- Circuit diagrams
- Operation and display
- Suitable transmitters
- Part number code
- Notes
- Accessories

### **Technical data**

#### Basic data

| Series      | MLC 500                |
|-------------|------------------------|
| Device type | Receiver               |
| Contains    | 2x BT-NC sliding block |
| Application | Hand protection        |
|             | Smart Process Gating   |

#### **Functions**

| Function package | Smart Process Gating   |
|------------------|--|
| Functions        | Fixed blanking with 1-beam tolerance                         |
|                  | Fixed blanking without tolerance                             |
|                  | Integration of "contact-based safety circuit"                |
|                  | Integration of "electronic safety-related switching outputs" |
|                  | MaxiScan   |
|                  | Muting-timeout extension                                     |
|                  | Qualified stop   |
|                  | Smart Process Gating   |
|                  | Start/restart interlock (RES)                                |
|                  | Transmission channel changeover                              |

### **Characteristic parameters**

| Туре                        | 4, IEC/EN 61496          |
|-----------------------------|--------------------------|
| SIL                         | 3, IEC 61508             |
| SILCL                       | 3, IEC/EN 62061          |
| Performance Level (PL)      | e, EN ISO 13849-1        |
| PFH <sub>D</sub>            | 7.73E-09 per hour        |
| Mission time T <sub>M</sub> | 20 years, EN ISO 13849-1 |
| Category                    | 4, EN ISO 13849          |
|                             |                          |

#### Protective field data

| Resolution              | 30 mm  |
|-------------------------|--------|
| Protective field height | 300 mm |

### **Optical data**

Synchronization Optical between transmitter and receiver

Overvoltage protection

### **Electrical data** Protective circuit

|  | Short circuit protected |
|--|-------------------------|
| Dayfayman a data                               |                         |
| Performance data Supply voltage U <sub>D</sub> | 24 V, DC, -20 20 %      |
| Current consumption, max.                      | 150 mA                  |
| Fuse   | 2 A semi time-lag       |

Number of digital switching inputs 3 Piece(s)

### **Switching inputs**

| Туре                         | Digital switching input |
|------------------------------|-------------------------|
| Switching voltage high, min. | 18 V                    |
| Switching voltage low, max.  | 2.5 V                   |
| Switching voltage, typ.      | 22.5 V                  |
| Voltage type                 | DC                      |

#### **Outputs**

Number of safety-related switching 2 Piece(s) outputs (OSSDs)

#### Safety-related switching outputs

| туре                         | Safety-related switching output USSD |
|------------------------------|--------------------------------------|
| Switching voltage high, min. | 18 V                                 |
| Switching voltage low, max.  | 2.5 V                                |
| Switching voltage, typ.      | 22.5 V                               |
| Voltage type                 | DC                                   |
| Current load, max.           | 380 mA                               |
| Load inductivity             | 2,000 μΗ                             |
| Load capacity                | 0.3 μF                               |
| Residual current, max.       | 0.2 mA                               |
| Residual current, typ.       | 0.002 mA                             |
| Voltage drop                 | 1.5 V                                |

### Safety-related switching output 1

| Assignment        | Connection 1, pin 5 |
|-------------------|---------------------|
| Switching element | Transistor, PNP     |

### Safety-related switching output 2

| Assignment        | Connection 1, pin 6 |
|-------------------|---------------------|
| Switching element | Transistor, PNP     |

#### **Timing**

| Response time      | 100 ms |
|--------------------|--------|
| Restart delay time | 100 ms |

| Connection            |            |
|-----------------------|------------|
| Number of connections | 1 Piece(s) |

### Connection 1

| Function           | Machine interface |
|--------------------|-------------------|
| Type of connection | Connector         |
| Thread size        | M12               |
| Material           | Metal             |
| No. of pins        | 8 -pin            |
|                    |                   |

#### Cable properties

| Cable properties                          |                      |
|---|----------------------|
| Permissible conductor cross section, typ. | 0.25 mm <sup>2</sup> |
| Length of connection cable, max.          | 100 m                |
| Permissible cable resistance to           | 200 Ω                |

### **Mechanical data**

| Binancia (M. II. II)  | 00 000 05 4               |
|-----------------------|---------------------------|
| Dimension (W x H x L) | 29 mm x 366 mm x 35.4 mm  |
| Housing material      | Metal                     |
| Metal housing         | Aluminum                  |
| Lens cover material   | Plastic / PMMA            |
| Material of end caps  | Diecast zinc              |
| Net weight            | 450 g                     |
| Housing color         | Yellow, RAL 1021          |
| Type of fastening     | Groove mounting           |
|                       | Mounting bracket          |
|                       | Mounting on Device Column |
|                       | Swivel mount              |
|                       |                           |

### **Operation and display**

| Type of display | 7-segment display |
|-----------------|-------------------|
|                 | LED               |
| Number of LEDs  | 3 Piece(s)        |

# **Dimensioned drawings**

All dimensions in millimeters

Calculation of the effective protective field height  $H_{PFE}$  =  $H_{PFN}$  + B + C

- $H_{\mathsf{PFE}}$  Effective protective field height = 328 mm
- ${\rm H}_{\rm PFN}$  Nominal protective field height = 300 mm
- Total height = 366 mm
- 19 mm

- Effective protective field height H<sub>PFE</sub> goes beyond the dimensions of the optics area to the outer borders of the circles labeled with R.

## **Electrical connection**

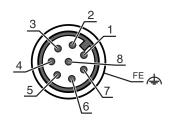

### **Connection 1**

| Function           | Machine interface |
|--------------------|-------------------|
| Type of connection | Connector         |
| Thread size        | M12               |
| Туре               | Male              |
| Material           | Metal             |
| No. of pins        | 8 -pin            |
| Encoding           | A-coded           |
| Connector housing  | FE/SHIELD         |

# **Electrical connection**

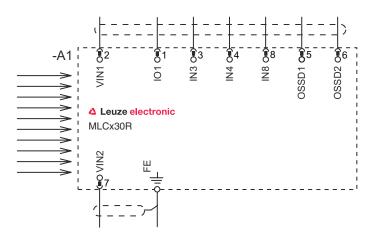

| Pin | Pin assignment | Conductor color |
|-----|----------------|-----------------|
| 1   | IO1/RES        | White           |
| 2   | VIN1           | Brown           |
| 3   | IN3            | Green           |
| 4   | IN4            | Yellow          |
| 5   | OSSD1          | Gray            |
| 6   | OSSD2          | Pink            |
| 7   | VIN2           | Blue            |
| 8   | IN8            | Red             |

# **Circuit diagrams**

## Connection diagram receiver

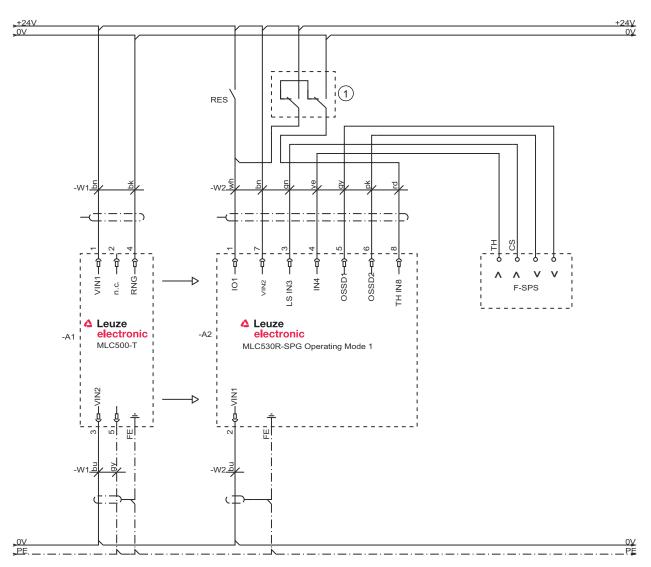

- VIN1 = +24 V, VIN2 = 0 V: transmission channel C1
- VIN1 = 0 V, VIN2 = +24 V: transmission channel C2

# **Circuit diagrams**

Operating mode 1: connection example with Smart Process Gating (SPG)

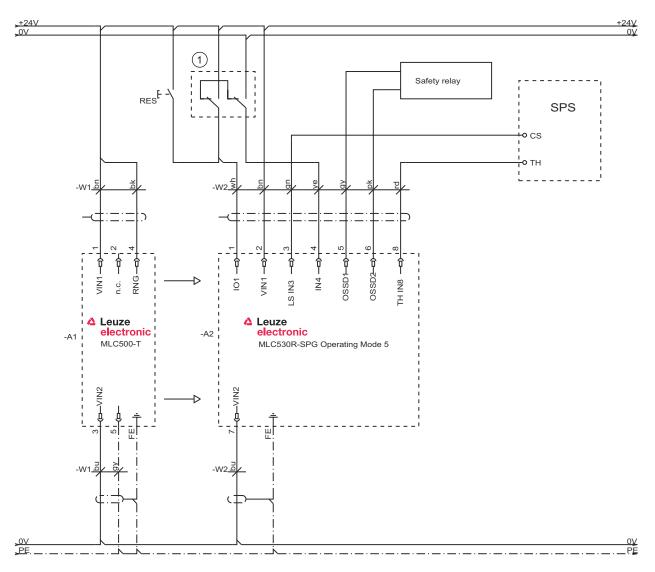

1 Optional teach key switch

# **Circuit diagrams**

Operating mode 5: circuit diagram example with Smart Process Gating (SPG)

<sup>1</sup> Optional teach key switch

# **Operation and display**

| LED | Display                     | Meaning   |
|-----|-----------------------------|---|
| 1   | Off                         | Device switched off   |
|     | Red, continuous light       | OSSD off  |
|     | Red, flashing, 1 Hz         | External error  |
|     | Red, flashing, 10 Hz        | Internal error  |
|     | Green, flashing, 1 Hz       | OSSD on, weak signal  |
|     | Green, continuous light     | OSSD on   |
| 2   | Off                         | RES deactivated or RES activated and enabled or RES blocked and protective field interrupted                          |
|     | Yellow, continuous light    | RES activated and blocked but ready to be unlocked - protective field free and linked sensor is enabled if applicable |
|     | Yellow, flashing            | Upstream safety circuit opened  |
|     | Yellow, flashing (1x or 2x) | Changeover of the upstream safety circuit   |
| 3   | Off                         | No special function (blanking, muting, etc.) active   |
|     | Blue, continuous light      | Protective field parameter (blanking) correctly taught  |
|     | Blue, flashing, 1 Hz        | Muting active   |

# **Operation and display**

| LED | Display               | Meaning  |
|-----|-----------------------|--|
| 3   | Blue, short flashing  | Teaching of protective field parameters or muting restart required or muting override active |
|     | Blue, flashing, 10 Hz | Error during teaching of protective field parameters   |

# Suitable transmitters

| Part no. | Designation   | Article                          | Description   |
|----------|---------------|----------------------------------|---|
| 68000303 | MLC500T30-300 | Safety light curtain transmitter | Resolution: 30 mm Protective field height: 300 mm Operating range: 0 10 m Connection: Connector, M12, Metal, 5 -pin |

## Part number code

Part designation: MLCxyy-za-hhhhei-ooo

| MLC  | Safety light curtain   |
|------|--|
| х    | Series 3: MLC 300 5: MLC 500   |
| уу   | Function classes  00: transmitter  01: transmitter (AIDA)  02: transmitter with test input  10: basic receiver - automatic restart  11: basic receiver - automatic restart (AIDA)  20: standard receiver - EDM/RES selectable  30: extended receiver - blanking/muting |
| z    | Device type T: transmitter R: receiver   |

## Services

| Part no. | Designation | Article                                      | Description  |
|----------|-------------|--|--|
| S981050  | CS40-I-140  | Safety inspection<br>"Safety light barriers" | Details: Checking of a safety light barrier application in accordance with current standards and guidelines. Inclusion of the device and machine data in a database, production of a test log per application.  Conditions: It must be possible to stop the machine, support provided by customer's employees and access to the machine for Leuze employees must be ensured.  Restrictions: Travel costs and accommodation expenses charged separately and according to expenditure. |
| S981046  | CS40-S-140  | Start-up support                             | Details: For safety devices including stopping time measurement and initial inspection.  Conditions: Devices and connection cables are already mounted, price not including travel costs and, if applicable, accommodation expenses.  Restrictions: Max. 2 h., no mechanical (mounting) and electrical (wiring) work performed, no changes (attachments, wiring, programming) to third-party components in the nearby environment.   |

### Note

🔖 A list with all available accessories can be found on the Leuze website in the Download tab of the article detailed page.
