# **Technical data**

### **Basic data**

| Series      | MLC 500                |
|-------------|------------------------|
| Device type | Transmitter            |
| Contains    | 2x BT-NC sliding block |
| Application | Access guarding        |
|             | Danger zone guarding   |

### **Functions**

Functions

Test signal input Transmission channel changeover

### **Characteristic parameters**

| Туре                        | 4, IEC/EN 61496          |
|-----------------------------|--------------------------|
| SIL                         | 3, IEC 61508             |
| SILCL                       | 3, IEC/EN 62061          |
| Mission time T <sub>M</sub> | 20 years, EN ISO 13849-1 |

90 mm

600 mm

0 ... 20 m

### **Protective field data**

Resolution Protective field height Operating range

### **Optical data**

| Synchronization          | Optical between transmitter and receiver  |
|--------------------------|---|
| Light source             | LED, Infrared                             |
| LED light wavelength     | 940 nm                                    |
| Transmitted-signal shape | Pulsed                                    |
| LED risk group           | Exempt group (in acc. with EN 62471:2008) |

### **Electrical data**

| Protective circuit            | Overvoltage protection  |
|-------------------------------|-------------------------|
|                               | Short circuit protected |
|                               |                         |
| Performance data              |                         |
| Supply voltage U <sub>B</sub> | 24 V, DC, -20 20 %      |
| Current consumption, max.     | 50 mA                   |
| Fuse                          | 2 A semi time-lag       |
|                               |                         |
| Innuto                        |                         |

Inputs Number of digital switching inputs 1 Piece(s)

| Switching inputs             |                         |
|------------------------------|-------------------------|
| Туре                         | Digital switching input |
| Switching voltage high, min. | 18 V                    |
| Switching voltage low, max.  | 2.5 V                   |
| Switching voltage, typ.      | 22.5 V                  |
| Voltage type                 | DC                      |

### Connection

# **Dimensioned drawings**

All dimensions in millimeters

### Calculation of the effective protective field height $H_{PFE} = H_{PFN} + B + C$

 $H_{PFE}$  Effective protective field height = 690 mm

 $H_{PFN}$  Nominal protective field height = 600 mm

A Total height = 666 mm

B 50 mm

C 40 mm R Effective

Effective protective field height H<sub>PFE</sub> goes beyond the dimensions of the optics area to the outer borders of the circles labeled with R.

# **Electrical connection**

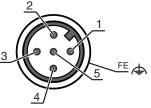

### **Connection 1**

| Function           | Machine interface |
|--------------------|-------------------|
| Type of connection | Connector         |
| Thread size        | M12               |
| Туре               | Male              |
| Material           | Metal             |
| No. of pins        | 5 -pin            |
| Encoding           | A-coded           |
| Connector housing  | FE/SHIELD         |
|                    |                   |
