#### Basic data

| Series      | MLD 500  |
|-------------|----------|
| Device type | Receiver |
|             |          |

| Functions |   |
|-----------|---|
| Functions | Alternative connection for second muting signal |
|           | Contactor monitoring (EDM), selectable          |
|           | Muting enable function                          |
|           | Muting-timeout extension                        |
|           | Partial muting                                  |
|           | Sequence controlled 2-sensor muting             |
|           | Start/restart interlock (RES)                   |
|           | Timing controlled 4-sensor muting               |

#### Characteristic parameters

| Туре                   | 4, IEC/EN 61496           |
|------------------------|---------------------------|
| SIL                    | 3, IEC 61508              |
| SILCL                  | 3, IEC/EN 62061           |
| Performance Level (PL) | e, EN ISO 13849-1         |
| MTTF <sub>d</sub>      | 204 years, EN ISO 13849-1 |
| $PFH_{D}$              | 6.6E-09 per hour          |
| Mission time $T_M$     | 20 years, EN ISO 13849-1  |
| Category               | 4, EN ISO 13849           |

#### **Optical data**

| Number of beams | 2 Piece(s) |
|-----------------|------------|
| Beam spacing    | 500 mm     |

#### **Electrical data**

| Selection of operating mode | Connection 1, pin 2: +24 V for operating mode 1, 2, 4 |
|-----------------------------|---|
|                             | Connection 1, pin 2: 0 V for operating mode 3, 5, 6   |
|                             | Connection 1, pin 7: +24 V for operating mode 3, 5, 6 |
|                             | Connection 1, pin 7: 0 V for operating mode 1, 2, 4   |
| Protective circuit          | Overvoltage protection                                |
|                             | Short circuit protected                               |

#### Performance data

| Supply voltage U <sub>B</sub> | 24 V, DC, -20 20 %            |
|-------------------------------|-------------------------------|
| Current consumption, max.     | 150 mA, Without external load |
| Fuse                          | External with max. 3 A        |
|                               |                               |

## Inputs

Number of digital switching inputs 4 Piece(s)

#### **Switching inputs**

| Туре                         | Digital switching input |
|------------------------------|-------------------------|
| Switching voltage high, min. | 18.2 V                  |
| Switching voltage low, max.  | 2.5 V                   |
| Switching voltage, typ.      | 23 V                    |
| Voltage type                 | DC                      |
| Switching current, max.      | 5 mA                    |

#### Digital switching input 1

| Assignment | Connection 1, pin 1                             |
|------------|---|
| Function   | Control input for start/restart interlock (RES) |

#### Digital switching input 2

| Assignment | Connection 1, pin 3                          |
|------------|--|
| Function   | Control input for contactor monitoring (EDM) |

#### Digital switching input 3

| Assignment | Connection 1, pin 4                 |
|------------|-------------------------------------|
| Function   | Control input, second muting signal |

#### Digital switching input 4

| Assignment | Connection 1, pin 8                   |
|------------|---------------------------------------|
| Function   | Control input, muting enable/ timeout |

#### Outputs

| 2 Piece(s) |
|------------|
|            |

Number of digital switching outputs 1 Piece(s)

#### Safety-related switching outputs

| Туре                         | Safety-related switching output OSSD |
|------------------------------|--------------------------------------|
| Switching voltage high, min. | 18.2 V                               |
| Switching voltage low, max.  | 2.5 V                                |
| Switching voltage, typ.      | 23 V                                 |
| Voltage type                 | DC                                   |
| Current load, max.           | 380 mA                               |
| Load inductivity             | 2,200,000 μΗ                         |
| Load capacity                | 0.3 μF                               |
| Residual current, max.       | 0.2 mA                               |
| Residual current, typ.       | 0.002 mA                             |
| Voltage drop                 | 1 V                                  |

#### Safety-related switching output 1

| Assignment        | Connection 1, pin 6 |
|-------------------|---------------------|
| Switching element | Transistor PNP      |

### Safety-related switching output 2

| Assignment        | Connection 1, pin 5 |
|-------------------|---------------------|
| Switching element | Transistor, PNP     |

#### Switching outputs

| Туре                         | Digital switching output |
|------------------------------|--------------------------|
| Switching voltage high, min. | 18.2 V                   |
| Switching voltage low, max.  | 2.5 V                    |
| Switching voltage, typ.      | 23 V                     |
| Voltage type                 | DC                       |

#### Switching output 1

| Assignment        | Connection 1, pin 1            |
|-------------------|--------------------------------|
| Switching element | Transistor, PNP                |
| Function          | "State of OSSDs" signal output |

#### **Timing**

| Response time      | 50 ms  |
|--------------------|--------|
| Restart delay time | 100 ms |
|                    |        |

#### Connection

Number of connections 2 Piece(s)

### **Technical data**

| Connection 1                               |                      |
|--|----------------------|
| Function                                   | Machine interface    |
| Type of connection                         | Connector            |
| Thread size                                | M12                  |
| Material                                   | Metal                |
| No. of pins                                | 8 -pin               |
|  |                      |
| Connection 2                               |                      |
| Function                                   | Local interface      |
| Type of connection                         | Connector            |
| Thread size                                | M12                  |
| Material                                   | Metal                |
| No. of pins                                | 8 -pin               |
|  |                      |
| Cable properties                           |                      |
| Permissible conductor cross section, typ.  | 0.25 mm <sup>2</sup> |
| Length of connection cable, max.           | 100 m                |
| Permissible cable resistance to load, max. | 200 Ω                |
|  |                      |
