## **Technical data**

#### **Basic data**

| Series           | MLC 500                              |
|------------------|--------------------------------------|
| Device type      | Receiver                             |
| Contains         | 2x BT-NC sliding block               |
| Application      | Access guarding                      |
|                  | Danger zone guarding                 |
|                  | Hand protection                      |
|                  | Smart Process Gating                 |
| Functions        |                                      |
| Function package | Smart Process Gating                 |
| Functions        | Fixed blanking with 1-beam tolerance |
|                  | Fixed blanking without tolerance     |
|                  | Integration of "contact-based safety |

circuit"

MaxiScan

Qualified stop Smart Process Gating Start/restart interlock (RES) Transmission channel changeover

switching outputs"

Muting-timeout extension

Integration of "electronic safety-related

Optical between transmitter and receiver

#### Outputs

Number of safety-related switching 2 Piece(s) outputs (OSSDs)

| Safety-related switching out | puts                                 |
|------------------------------|--------------------------------------|
| Туре                         | Safety-related switching output OSSD |
| Switching voltage high, min. | 18 V                                 |
| Switching voltage low, max.  | 2.5 V                                |
| Switching voltage, typ.      | 22.5 V                               |
| Voltage type                 | DC                                   |
| Current load, max.           | 380 mA                               |
| Load inductivity             | 2,000 µH                             |
| Load capacity                | 0.3 µF                               |
| Residual current, max.       | 0.2 mA                               |
| Residual current, typ.       | 0.002 mA                             |
| Voltage drop                 | 1.5 V                                |
|                              |                                      |

#### Safety-related switching output 1

| Assignment        |  |
|-------------------|--|
| Switching element |  |

Connection 1, pin 5 Transistor, PNP

| Safety-related switching | output 2            |
|--------------------------|---------------------|
| Assignment               | Connection 1, pin 6 |
| Switching element        | Transistor, PNP     |

#### Timing

| Response time      | 100 ms |
|--------------------|--------|
| Restart delay time | 100 ms |

#### Connection

| Number of connections                      | 1 Piece(s)           |
|--|----------------------|
| Connection 1                               |                      |
| Function                                   | Machine interface    |
| Type of connection                         | Connector            |
| Thread size                                | M12                  |
| Material                                   | Metal                |
| No. of pins                                | 8 -pin               |
| Cable properties                           |                      |
| Permissible conductor cross section, typ.  | 0.25 mm <sup>2</sup> |
| Length of connection cable, max.           | 100 m                |
| Permissible cable resistance to load, max. | 200 Ω                |

#### **Mechanical data**

| Dimension (W x H x L) | 29 mm x 2,766 mm x 35.4 mm |
|-----------------------|----------------------------|
| Housing material      | Metal                      |
| Metal housing         | Aluminum                   |
| Lens cover material   | Plastic / PMMA             |
| Material of end caps  | Diecast zinc               |
| Net weight            | 2,850 g                    |
| Housing color         | Yellow, RAL 1021           |
| Type of fastening     | Groove mounting            |
|                       | Mounting bracket           |
|                       | Mounting on Device Column  |
|                       | Swivel mount               |
|                       |                            |

| ETIM 7.0              | EC002549 |

### **Dimensioned drawings**

All dimensions in millimeters

Calculation of the effective protective field height  $H_{PFE} = H_{PFN} + B + C$ 

 $H_{PFE}$  Effective protective field height = 2740 mm

 $\rm H_{\rm PFN}$  Nominal protective field height = 2700 mm

А Total height = 2766 mm

В 25 mm С 15 mm

R

Effective protective field height  $\rm H_{\rm PFE}$  goes beyond the dimensions of the optics area to the outer borders of the circles labeled with R.

## **Electrical connection**
