Technical data

Basic data		Outputs	
Series	BCL 95	Number of digital switching outputs	1 Piece(s)
Franctions		Switching outputs	
Functions		Voltage type	DC
Functions	Alignment mode	Switching voltage	5 30 V DC, 20 mA
	AutoConfig		
	I/O	Switching output 1	
	LED indicator	Switching element	Transistor, NPN
	Multiple read / MultiScan	Function	configurable
	Output format selectable		
	Reading gate control	Interface	
	Reference code comparison	Туре	RS 232
Read data			
Neau uata		RS 232	D
Code types, readable	2/5 Interleaved	Function	Process
	Codabar	Transmission speed	4,800 57,600 Bd
	Code 128	Data format	Adjustable
	Code 32	Start bit	1
	Code 39	Data bit	7,8
	Code 93	Stop bit	1.2
	EAN 128	Parity	Adjustable
	EAN 8/13	Transmission protocol	Adjustable
	EAN Addendum	Data encoding	ASCII
	EAN/UPC		HEX
	Pharmacode (available upon consultation)	Service interface	
	UPC-A	Туре	RS 232
	UPC-E		
Scanning rate, typical	600 scans/s	RS 232	
		Function	Service
Optical data		Connection	
Reading distance	41 186 mm		
Light source	Laser, Red	Number of connections	1 Piece(s)
Laser light wavelength	655 nm		
Laser class	1 acc. to IEC 60825-1:2014 (EN 60825-1:2014)2 acc. to IEC 60825-1:2007 (EN	Connection 1 Function	Data interface

Electrical connection

Connection 1

Function	Data interface
	Signal IN
	Signal OUT
	Voltage supply
Type of connection	Cable
Cable length	2,000 mm
Sheathing material	PVC
Cable color	Black
Number of conductors	6 -wire
Wire cross section	0.081 mm ²

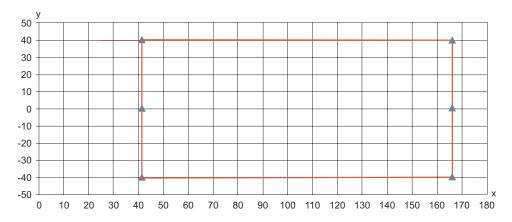

Conductor color

Conductor assignment

Red	V+
Orange	IN 1
Violet	GND
Black	OUT 1
White	RS 232 RxD
Green	RS 232 TxD

Diagrams

Reading field curve for module m = 0.165 ... 0.2 mm (6.5 ... 8 mil)

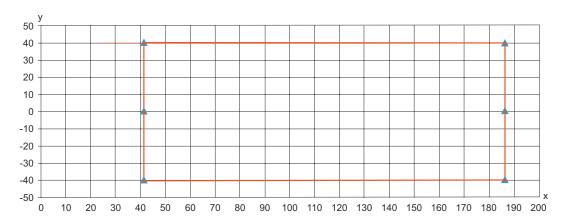

- x Reading distance [mm]
- y Reading field width [mm]

Diagrams

Reading field curve for module m = 0.2 ... 0.5 mm (8 ... 20 mil)

- x Reading distance [mm]
- y Reading field width [mm]

Operation and display

LED	Display	Meaning
1 PWR	Green, flashing	Initialization
	Green, continuous light	Operational readiness
	Red, flashing	Warnings
	Red, continuous light	Error
	Orange, flashing	Service operation active
2 GOOD	Green, 200 ms on	Reading successful
READ	Red, 200 ms off	No reading result
	Orange, continuous light	Reading gate active

Notes

Observe intended use!

For UL applications:

 $\$ For UL applications, use is only permitted in Class 2 circuits in accordance with the NEC (National Electric Code).

Notes

WARNING! LASER RADIATION - CLASS 1 LASER PRODUCT

The device satisfies the requirements of IEC 60825-1:2014 (EN 60825-1:2014) safety regulations for a product of laser class 1

- ♦ Observe the applicable statutory and local laser protection regulations.
- The device must not be tampered with and must not be changed in any way. There are no user-serviceable parts inside the device. Repairs must only be performed by Leuze electronic GmbH + Co. KG.

WARNING! LASER RADIATION - CLASS 2 LASER PRODUCT

Do not stare into beam!

The device satisfies the requirements of IEC 60825-1:2007 (EN 60825-1:2007) safety regulations for a product of laser class 2 as well as the U.S. 21 CFR 1040.10 regulations with deviations corresponding to "Laser Notice No. 50" from June 24, 2007.

- Never look directly into the laser beam or in the direction of reflected laser beams! If you look into the beam path over a longer time period, there is a risk of injury to the retina.
- ♥ Do not point the laser beam of the device at persons!
- 🖖 Interrupt the laser beam using a non-transparent, non-reflective object if the laser beam is accidentally directed towards a person.
- 🔖 When mounting and aligning the device, avoid reflections of the laser beam off reflective surfaces!
- CAUTION! Use of controls or adjustments or performance of procedures other than specified herein may result in hazardous light exposure. The glass optics cover is the only aperture through which laser radiation may be observed on this product.
- Observe the applicable statutory and local laser protection regulations.
- The device must not be tampered with and must not be changed in any way. There are no user-serviceable parts inside the device. Repairs must only be performed by Leuze electronic GmbH + Co. KG.

NOTE

Affix laser information and warning signs!

Laser information and warning signs are affixed to the device. In addition, self-adhesive laser information and warning signs (stick-on labels) are supplied in several languages.

- Affix the laser information sheet to the device in the language appropriate for the place of use. When using the device in the US, use the stick-on label with the "Complies with 21 CFR 1040.10" note.
- Affix the laser information and warning signs near the device if no signs are attached to the device (e.g. because the device is too small) or if the attached laser information and warning signs are concealed due to the installation position.
- Affix the laser information and warning signs so that they are legible without exposing the reader to the laser radiation of the device or other optical radiation.

WARNING!

If the scanner motor fails during the emission of laser radiation, the limit value of laser class 2 in accordance with IEC 60825-1 Edition 2.0 (2007) and Edition 3.0 (2014) could be exceeded. The device has safeguards to prevent this occurrence.

- \$ If the emitted laser beam is at a standstill, immediately disconnect the faulty bar code reader from the voltage supply.
- The BCL 95 emits scanned optical radiation at a wavelength of 655 nm (red). Looking at the device's mirror and operating at the lowest scanning rate (400 scans/s) at a viewing distance of 65 mm results in pulses with a pulse duration of 120 µs on the retina of the eye. The total pulse peak power at the exit window is less than 2.1 mW. The average laser power is, thus, less than 1 mW, corresponding to laser class 2 in accordance with EN 60825-1, Edition 2.0 (2007) and IEC 60825-1, Edition 2.0 (2007) and IEC 60825-1, Edition 3.0 (2014).

Accessories

Mounting technology - Mounting brackets

	Part no.	Designation	Article	Description
5.	50118542	BT 200M.5	Mounting bracket	Design of mounting device: Angle, L-shape Fastening, at system: Through-hole mounting Mounting bracket, at device: Screw type, Suited for M3 screws Type of mounting device: Adjustable Material: Stainless steel

Mounting technology - Rod mounts

Part no.	Designation	Article	Description
50119331	BTU 900M-D12	Mounting system	Design of mounting device: Mounting system Fastening, at system: For 12 mm rod, Sheet-metal mounting Mounting bracket, at device: Screw type Type of mounting device: Clampable, Swiveling, Turning, 360° Material: Metal
